

2021 AMOS Dialogue

Improving Transparency and Trust in SSA Data Sharing

Thursday, September 16, 2021
0915 HST / 1500 EDT / 2100 CEST

The Wailea Beach Marriott Resort & Spa
Mauna Loa Room

0915 **Welcome and Introductions**
HST

Brian Weeden, Director of Program Planning, Secure World Foundation (SWF)
Round-the-table introductions
Recap of Previous Dialogues

0930 **Session 1 - Improving the Transparency of RPO in GEO**

Overview of the Satellite Dashboard initiative from SWF, CSIS, and U. of Texas at Austin, which collates SSA information from multiple sources to make it easier to visualize and track RPO activities in the GEO belt. Moderated group discussion for feedback on the Dashboard and ideas for improvements and complementary activities.

Thomas Roberts, CSIS
Moderator - Brian Weeden, SWF

1015 **Break**

1030 **Session 2: Technologies for Improving Trust in SSA Data Sharing**

Short briefings on two recent proposals for using distributed networks and blockchain technologies to improve trust in SSA data sharing. Moderated group discussion of the pros and cons of adopting these and related technologies to increase willingness to share SSA data between governments, satellite operators, and the public.

Ruth Stillwell, Mitre
Waqar Zaidi, L3 Harris
Moderator – Victoria Samson, SWF

1115 **Conclusion**

Brian Weeden, SWF
Leslie Wilkins, President, Maui Economic Development Board

1130 **Adjourn**
